

# Persoalan Sitasi [**dan Plagiarism**] Dalam Karya Ilmiah

Perspektif Berinovasi di iARG – Jurusan Fisika FMIPA UNS

**Iwan Yahya**

The iwany Acoustics & Applied Physics Research Group [iARG]  
Jurusan Fisika FMIPA Universitas Sebelas Maret  
iwanyy@yahoo.com, iyahya@uns.ac.id

Disajikan pada Lokakarya Senat UNS 30 Mei 20012

## Plagiarisme [**dalam keseharian**] Kita

Karl Theodore zu Guttenberg – Ph.D. Bayreuth University

Image diambil dari Goresanpelangi

## the most [**shocking**] case

**Jan Hendrik Schon** – Fisikawan Bell Laboratories  
*Author Misconduct*: Tindakan Fabrikasi Data  
 Jumlah *retracted paper*: 6 dari Science, 7 dari Nature, dan 6 dari American Physical Society Journals;  
 Dipecat dari pekerjaan sebagai peneliti;  
 Sanksi tidak diijinkan mendapat dana riset selama 8 tahun;  
 Pencabutan gelar PhD oleh Universitas Konstanz pada tahun 2004.

**Hwang Woo-Suk** – Professor Bioteknologi Seoul National University Korea;  
*Author Misconduct*: Tindakan Fabrikasi Data  
 Menjadi sangat terkenal berkat dua publikasi di Science pada 2004 dan 2005 yang menyebutkan keberhasilan pengembangan sel punca (stem cell) manusia dengan teknik cloning;  
 Kedua paper tersebut kemudian ditarik kembali;  
 Terkena sanksi hukum: penjara;  
 Kehilangan pekerjaan: reputasi akademik hancur.

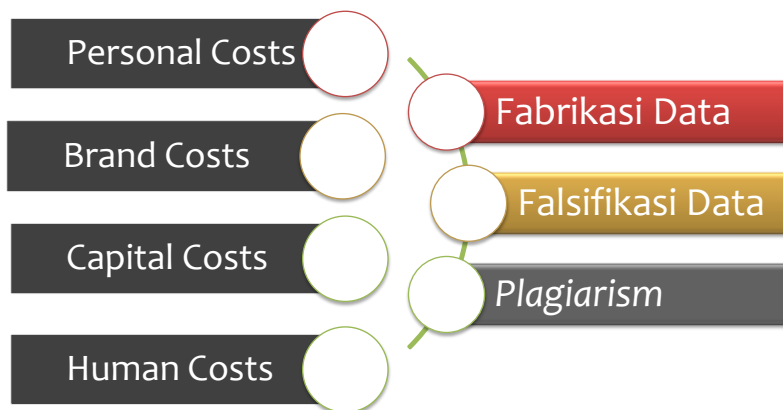

mengapa  
 [**author misconduct**]  
 terjadi?

## outline [**presentasi**] saya

Author Misconduct: Ragam & Konsekuensinya  
Sitasi & Authorships  
Perspektif Strategi & Sistem Inovasi UNS

### Author Misconduct and Its Costs

## The Costs of Research Misconduct

*Research is a growing global industry...*

### JOURNAL ARTICLES PUBLISHED ANNUALLY:

Pertumbuhan 77%

### VOLUME OF RESEARCHERS VS. PUBLISHING OUTLETS WORLDWIDE:

**7 MILLION**

RESEARCHERS<sup>2</sup>

**31,758**

SCHOLARLY JOURNALS<sup>1</sup>

## The Costs of Research Misconduct [2]

*Where cases of misconduct are increasing...*

...OF SUBMISSIONS REJECTED BY A LEADING JOURNAL DUE TO PLAGIARISM<sup>3</sup>

### RESEARCH MISCONDUCT DEFINED AS:<sup>4</sup>

- FABRICATION
- FALSIFICATION
- PLAGIARISM
- UNETHICAL TREATMENT OF RESEARCH SUBJECTS

**1 OUT OF 3 SCIENTISTS ADMITS TO QUESTIONABLE RESEARCH PRACTICES<sup>5,6</sup>**

## The Costs of Research Misconduct [3]

*Leading to dramatic increases in retractions...*

### 10+ FOLD INCREASE IN RETRACTIONS WORLDWIDE IN A DECADE<sup>2</sup>

2001:  
< 30 RETRACTIONS

2011:  
400+ RETRACTIONS

### TOP 4 REASONS FOR RETRACTIONS<sup>2,9</sup>

- 1 MISTAKES
- 2 SELF-PLAGIARISM
- 3 PLAGIARISM
- 4 FABRICATION OR FALSIFICATION

## The Costs of Research Misconduct [4]

*With human and monetary costs...*

### TYPES OF DAMAGE FROM DECEPTIVE RESEARCH:

INDIVIDUAL COSTS

**JOB LOSSES, REVOKED PhDs  
AND AWARDS**

CAPITAL COSTS

**\$525,000**

COST OF A SINGLE INVESTIGATION INTO RESEARCH MALPRACTICE IN U.S.<sup>7</sup>

BRAND COSTS

**DAMAGED REPUTATIONS,  
RETRACTIONS AND SALES LOSSES**

HUMAN COSTS

**70,501**

PATIENTS TREATED BY 851 RETRACTED SECONDARY STUDIES<sup>8</sup>

**\$110 MILLION**

TOTAL COST OF INVESTIGATIONS INTO RESEARCH MISCONDUCT IN U.S. IN 2010<sup>6</sup>

mengapa  
[*author misconduct*]  
terjadi?

Quality [Measures] in Research

Conduct of Science:

Theory, Method, Analytical Model [**Publishable**]

Technology & Economic Outcome:

Prototype, Software, Tools [**Patentable**]

Societal Outcome:

Public Services, **CSR Perspective**

Educational Impact:

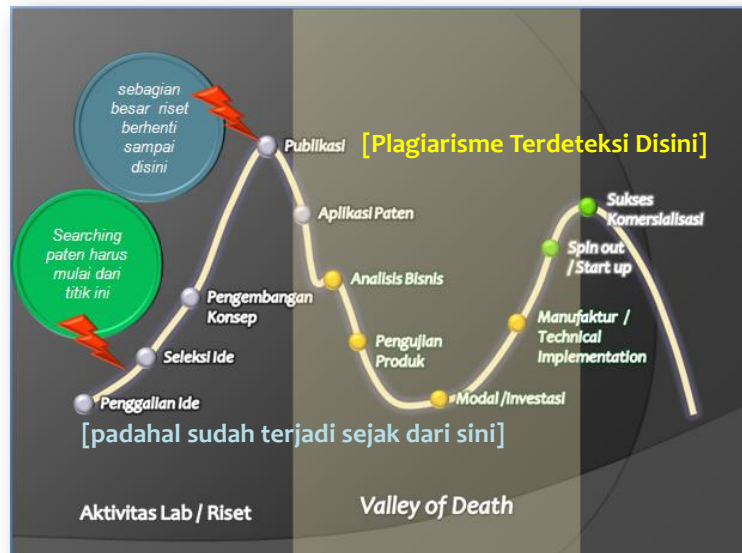

Supporting for **teaching and learning services**

---

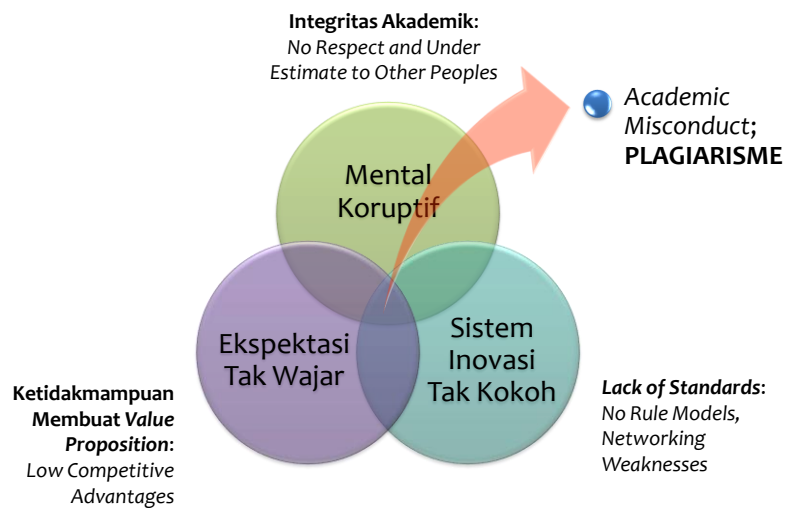

Idiom Populer [yang wajib disikapi secara bijaksana]:

**Publish or Perish**

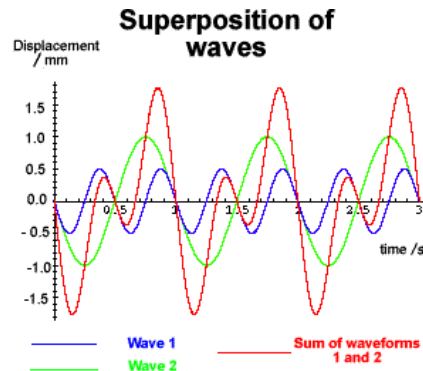

## Research Steps: Perspektif [Entrepreneurial] University

## mengapa [plagiarisme] terjadi

mengapa [plagiarisme] terjadi

Superposisi Mental Koruptif dan Ekspektasi Tak Wajar dalam Keadaan Tak Mampu Membuat Value Proposition Menghasilkan Resultan dengan Kekuatan yang Dapat Merusak Integritas dan Ketahanan Sistem Nilai Akademik

Images:

## Masalah Sitasi & Authorships

### Referencing:

1. Citing in the text
2. Reference at the end of the works

### Citing & Referencing Styles:

Terdapat banyak ragam gaya sitasi dan penulisan referensi: Harvard System, APA, Chicago Style, dan lain-lain. Bahkan setiap jurnal internasional menyajikan tatacara sitasi yang berlaku [dapat diakses di internet].

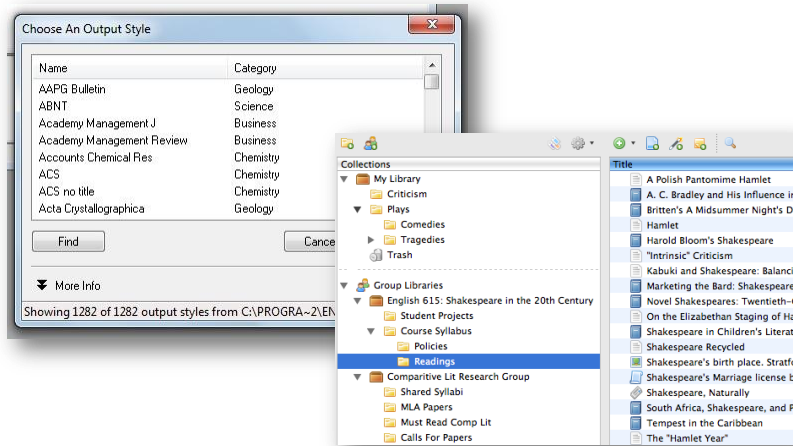

### Perangkat Lunak:

Terdapat banyak pilihan perangkat lunak yang dapat memudahkan peneliti dalam mengelola referensi: Endnote, Refworks, Zotero.

## Masalah Sitasi & Authorships

### Referencing Styles & Resources Management:

## Masalah Sitasi & Authorships [2]

### Authorships:

*Author is a person who has made a substantive intellectual contribution to the submitted manuscript. A substantive contribution includes of the following: Design or conceptualization of study OR analysis or interpretation of the data OR drafting or revising the manuscript for intellectual content.*

Mahasiswa yang membantu proses penelitian [bertugas melakukan pengambilan data] tidak terkategori sebagai author. Peran mereka dapat diapresiasi di dalam acknowledgement. Pihak sponsor tidak terkategori sebagai author. Gift writer, grant writer dan apalagi ghost writer merupakan kategori author misconduct.

## Masalah Sitasi & Authorships [3]

### Re-Use of Data & Plagiarism Issue

#### *Rule of Thumb*

Seorang atau sekelompok peneliti telah terkategori melakukan self plagiarism tatkala yang bersangkutan menggunakan sebanyak 10% atau lebih data yang telah digunakan dalam publikasi terdahulu dengan tanpa penambahan atribut baru apa pun.

*Sangat penting bagi para peneliti untuk memahami secara benar makna tersirat dari Cover Letter saat mengirimkan manuskrip kepada pihak penerbit.*

## Masalah Sitasi & Authorships [4]

### Self Plagiarism

The issue is not related to publication of manuscript twice or more but about the **intention of the author(s) to deceive.**

*Dalam banyak peristiwa semisal kasus Nelson Tansu, self plagiarism terjadi karena 'tekanan karir'. Idiom Publish or Perish harus disikapi dengan sikap dan perilaku bijaksana. Universitas berkewajiban mengembangkan strategi bersistem untuk menanggulangi segala macam academic misconduct.*

## some [research] finding

#1

### *Cheaters cheating themselves*

Kavanaugh, J. F., *Cheaters*, America Vol 189, Sept. 29, 2003

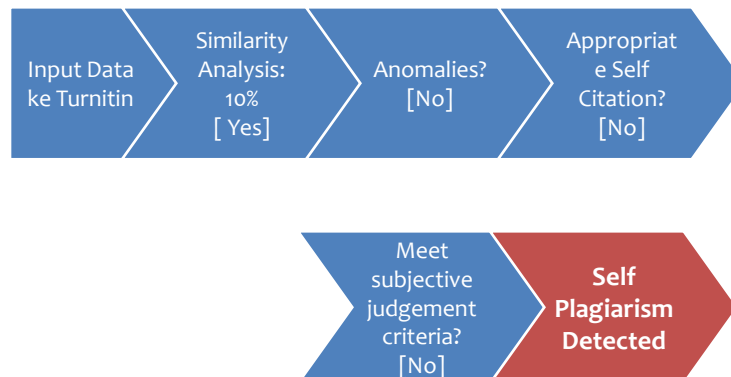

#2

jika seseorang dapat melakukan tindakan plagiarisme dengan tanpa terdeteksi, maka sejatinya orang tersebut memiliki kemampuan untuk menulis karya ilmiah dengan tanpa perlu melakukan tindakan kecurangan

Malesic, J. *How dumb do they think we are?*  
Chronicle of Higher Education, vol 53. Dec 15, 2006

## Masalah Sitasi & Authorships [4]

### Common Self Plagiarism Combating Strategy

## strategy [for plagiarism] combating

Integrated Innovation System

**Accurate • Easy • Free**

Home    Features    Blog    Groups    Plagiarism    Download    Editing Services

**Viper, the plagiarism checker that's accurate, easy and free...**

**Checked your essay for plagiarism?**

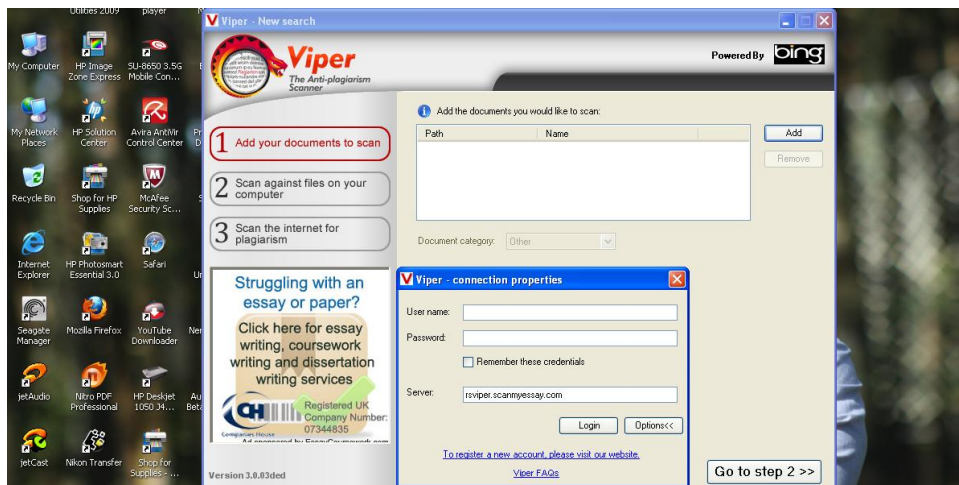

To avoid plagiarism, you should always reference correctly according to your institution's guidelines and use Viper. Viper is fast becoming the plagiarism checker of choice, rising over and above other plagiarism checkers, with over 10 billion resources scanned and an easy interface which highlights potential areas of plagiarism in your work. Best of all, there's a free option!

Got an essay ready to hand in but need it checking over first?

## Blue Ocean Strategy [Kim and Mauborgne]

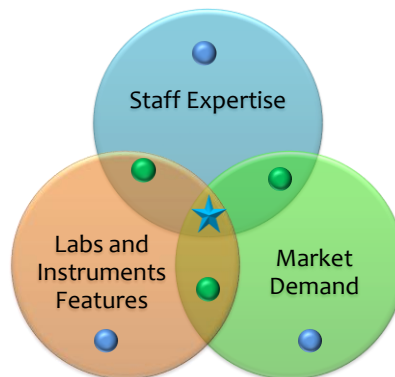

## Blue Ocean Strategy [Kim and Mauborgne]

Red Ocean Strategy	Blue Ocean Strategy
Compete in existing market spaces	Create uncontested market space
The industry structural condition are given and firms are forced to compete within them ( <i>structuralist view/environmental determinism</i> )	Market boundaries and industries can be reconstructed by the actions and beliefs in industry players ( <i>reconstructionist view</i> )
Beat the competition	Make the competition irrelevant
Exploit existing demand	Create and capture new demand
Make the value/cost trade off	Break the value/cost trade off
Align the whole system of a company's activities with its strategic choice of differentiation or low cost	Align the whole system of a company's activities in pursuit of differentiation and low cost

## Thinker Toys [Michael Michalko]

### iARG Expertise Marketing Model

- ★ **Star Segment:** Top Priority [Main Product and or Services]
- **Green Segment:** Short and medium term development [Promising product and or services]
- **Blue Segment:** Implement the Blue Ocean and Thinker Toys Strategy for Long Term Development Product and or Services Improvement and diversification

**Strong Innovation Track Record:**

Research and Technology Development Achievement;  
Collaboration and Networks [**Form RG01**]

**Specific Measurement & Analysis Capabilities:**

Standards [SNI, ISO, ASTM, JIS, etc.]

**Specific Market:**

Define the main products and services; Develop product diversification .

**iARG Expertise Marketing Model [3] : Example****Strong Innovation Track Record:**

Long story on Acoustics Research: Sound Absorber development; sound and vibration based energy harvesting; room and environmental noise analysis; sound diffuser and exhaust muffler simulation and design

**Specific Measurement & Analysis Capabilities:**

Sound absorption and sound transmission loss measurement [ASTM, ISO, and JIS]; room acoustic analysis [ASTM & ISO]; environmental noise analysis [ASTM & ISO]; Sound intensity analysis [ISO]; and transfer function based analysis [ASTM & ISO].

**Specific Market:**

Automotive Supply Industries [silencer, front hood, carpet, and etc.]; exhaust muffler industries; acoustics materials industries; auditorium and hall acoustics measurements; Acoustic tile and partition including sound diffusers, and etc.

Catatan Akhir

## Plagiarisme [**BUKAN**] Pilihan
